CEPF Proposal Development Workshop

Recap

© A. W. Tordoff

- Start with a problem statement and work backwards
- Answer three questions: What problem do you want to solve? How will you solve it? How will you know you have solved it?
- Impacts should be SMART
- Deliverables should be tangible outputs
- Involve stakeholders at all stages
- Support women to increase their access to natural resources and their participation in decision making
- Don't be afraid to ask!

CEPF Proposal Development Workshop
