

Call for Letters of Inquiry Madagascar and the Indian Ocean Islands (MADIO) Biodiversity Hotspot

Small Grants

Eligible Country: Seychelles

Opening Date: 8 August 2024

Closing Date: 13 September 2024, 12 pm (Seychelles Time, GMT+4)

Grant Size: Small Grant Maximum grant size US\$50,000

The regional implementation team (RIT) of the [Critical Ecosystem Partnership Fund](#) (CEPF) in the Madagascar and the Indian Ocean Islands hotspot, is accepting letters of inquiry (LOIs) from non-governmental organizations, community groups, Indigenous peoples' organizations, women's groups, private companies and other [civil society organizations](#) for projects that promote ecosystem-based adaptation (EbA) in response to climate change and address the eligible activities and geographies of this call.

For more information about CEPF investment in the hotspot, consult:

- Ecosystem Profile: [English - French](#)
- Ecosystem-based Adaptation in the Indian Ocean: [English - French](#)

1. ELIGIBILITY

Eligible Applicants

Non-governmental organisations, community groups and associations, universities and research institutes, private enterprises and other civil society organisations may apply for this call.

Individuals are not eligible..

Government-owned enterprises or institutions are not eligible unless it can be established that they:

- o Have a legal personality independent of any government agency or actor.
- o Have the authority to apply for and receive private funds.
- o May not assert a claim of sovereign immunity.

Applicants based outside the eligible geographic areas are eligible as long as the project deliverables are focused on the conservation needs of this call within the eligible geographies.

Preference will be given to projects that show that they will coordinate with other organisations to prevent duplication of efforts, such as projects that will be implemented through partnerships and alliances. As such, joint projects with multiple organisations are eligible, as long as one lead organisation submits the application and project partners have clear roles stated in the application.

Applying organisations must have their own bank accounts and be legally entitled to receive grants.

Applicants are strongly encouraged to familiarise themselves with the CEPF website, particularly the sections on [Eligibility](#), [Before You Apply](#) and [How to Apply](#). Potential applicants who are uncertain of the eligibility of their organisation or project concept are encouraged to contact the RIT at cepfproposals@iucn.nl for clarification.

Eligible Technical Scopes

Applicants should ensure that the core content of their LOI refers to the eligible strategic direction as listed below and one or two of the associated investment priorities. If the activity is not aligned with this strategic direction and the associated investment priority, the application will be rejected.

Strategic Direction 1: Empower communities and civil society to implement actions to improve the resilience of species, ecosystems, and human populations to climate change in priority KBAs

This strategic direction will focus on providing the necessary funding, technical support, and capacity building for CSOs to implement EbA actions to improve the resilience of the most vulnerable species, ecosystems, and people to climate change. Expected outcomes include increased resilience and improved livelihoods for vulnerable populations, but also improved resilience of ecosystems and ecosystem services.

Investment Priority 1.1: Implement EbA actions, including agroforestry, “climate smart agriculture”, eradication of IAS, restoration of degraded watersheds and coastal ecosystems (including wetlands, mangroves, reefs and seagrass beds), and promotion of sustainable management of coastal and terrestrial ecosystems

Eligible projects will be those proposing to design and implement EbA, Nature-Based Solutions (NbS) and conservation actions that respond to climate impacts at priority KBAs. Activities will analyze the adverse impacts of climate change on human livelihoods and propose solutions that can support, conserve, or restore species and natural areas in ways that help regulate or diminish the negative impacts. Identified solutions will then need to

be planned based on an understanding of their costs and strategies to cover those costs, both during the projects and beyond, to ensure the sustainability and continuity of the new EbA actions.

Investment Priority 1.2: Support the establishment and development of economic models that improve the resilience of local communities to climate change and support value chains for natural products, while strengthening ecosystem services that contribute to EbA

Eligible projects will be those proposing to support the development of economic models that improve community resilience to climate change, including nature-based tourism and sustainable production of natural products. This could be done, in particular, through strengthening the factors of production, improving access to national and international markets and/or capacity building in business management and entrepreneurship.

Further information on strategic directions and KBAs is available in Chapter 14 of the [ecosystem profile](#).

Only the following types of projects will be considered eligible as part of this call:

- Projects that are implemented across multiple islands, multiple KBA sites, with a common theme of restoring ecosystem integrity and function by targeting the removal of specific species that pose a threat to each of the areas.
- Projects that involve communities in designing a program whereby invasive species (such as the invasive creepers, sisal) could be used to make nature-based products as business models to improve the livelihoods of these people. These projects could be combined as part of the Invasive alien species projects outlined above.
- Projects that undertake a ridge to reef approach whereby restoration of riverine systems can be undertaken, and this will address both the forest management and intact coastal area indicators.

The targets of CEPF investment for these Investment Priorities can be found in chapter 15. LOGICAL FRAMEWORK FOR THE MADIO HOTSPOT of the Ecosystem Profile, and are for this call for LOI:

- 610,000 hectares of intact coastal* ecosystems with enhanced management.
- 300,000 hectares of intact watershed forest ecosystems with enhanced management.
- 2,000 hectares of degraded coastal* ecosystems restored.
- 1,000 hectares of degraded watershed forest ecosystems restored.
- 1,000 hectares of small island ecosystems where invasive alien species have been eliminated or reduced.

*In the case of the CEPF project for this investment, "coastal" refers to both habitats along the coast, above the low tideline (mangroves, beaches, lagoons, etc.) and inshore marine areas along the coast and below the low tideline (seagrass beds, coral reefs , etc.).

Eligible Geographic Areas

Out of the 20 priority KBAs identified for Seychelles, only 17 listed below are eligible for this call. This is because projects covering the remaining 3 KBAs are already underway.

KBA Code	KBA Name
SYC03	Astove
SYC05	Cosmoledo
SYC06	Farquhar - South Island and islets
SYC09	Fond Ferdinand
SYC15	Bird Island (Ile aux Vaches)
SYC19	D'Arros Island and Saint Joseph Atoll
SYC20	Denis Island
SYC32	Saint-François and Bijoutier Islands
SYC36	Burnt Mountain-Piton de l'Eboulis
SYC38	Planneau Mountain (Grand Bois-Varigault-Cascade)
SYC41	Praslin National Park
SYC42	Silhouette National Park
SYC43	Morne Seychellois National Park
SYC46	Curieuse Island Marine National Park*
SYC48	Sainte-Anne Marine National Park**
SYC51	Aride Island Special Reserve
SYC52	Cousin Island Special Reserve

*KBA SYC46 excludes the terrestrial part of Curieuse Island (SYC18) which is not eligible for this call.

**For KBA SYC48, only Île Cachée, Cerf Island and Harrison Rock (Grand Rocher) are eligible.

To help you locate the 17 KBAs open for this call, an interactive map showing all the 20 priority KBAs identified by CEPF in the hotspot is available [here](#).

Eligible Budget and Timeframe

The maximum amount for small grants is US\$50,000. Applications with a budget higher than this amount will not be eligible for review, but applicants can check the call for large grants.

Small grant projects can start as of 1 **January 2025** and can not have a time span exceeding 31 December 2026 (24 Months).

In case the project is part of a larger programme which runs beyond CEPF timelines, the maximum amount and/or eligibility criterias, the applicant must provide a clear distinction of activities and results in the LoI in order to establish eligibility of the application.

Submission Date

Letters of inquiry (LOIs) are due no later than 13 September 2024, 12:00 pm (Seychelles Time, GMT+4). Applications submitted after the deadline will not be eligible.

Language Criteria

Small grants applications should be in English. Other languages will not be considered for review.

General Eligibility Criteria

Only the following types of projects will be considered eligible as part of this call:

- i. Demonstrate that the proposed EbA activity addresses vulnerability based on a clear climate change risk.
- ii. Adopt EbA approaches that increase the resilience of ecosystems and ecosystem services in the priority KBAs.
- iii. Reflect on the climate change mitigation potential of the project.
- iv. Address priorities identified in national climate change policy or strategy documents of the relevant country of implementation.

- v. Demonstrate positive gender impacts.
- vi. Demonstrate effective and efficient use of funds.
- vii. Demonstrate a clear strategy for achieving financial sustainability.
- viii. Are the closest fit to the investment strategy set out in the ecosystem profile.

Check [here](#) what CEPF does **not** fund.

Before awarding any grant, CEPF will screen all projects against [CEPF's safeguard policies](#) in order to prevent any potential negative impacts of the project on humans and the environment.

CEPF will also evaluate the projects based on gender equality. CEPF has developed several resources that can help applicants to design, implement and evaluate gender-responsive projects ([CEPF Gender Toolkit](#)) and understand what CEPF expects in a proposal ([CEPF Gender Fact Sheet](#)). Visit the [CEPF and Gender webpage](#) to learn more about how CEPF addresses gender equality in the projects it supports.

2. HOW TO APPLY

Applications for small grants should be submitted in English. Please download the letter of inquiry and budget templates or fill in the online form directly (Preferred).

Any changes to the letter of intent and budget templates will render the application ineligible. **Applications must be submitted by filling in the online form directly (Preferred) or as a Word document (for the letter of intent) and as an Excel sheet for the budget (in case of poor Internet connection).**

•**English:** [Letter of Inquiry template](#) and [Budget template](#). / [Online form](#)

Small grant applicants are invited to submit their LOI and budget by email **no later than 13 September 2024, 12 pm (Seychelles Time)** to cepfproposals@iucn.nl, with the following object of the email: LOI_2/2024/SG_CEPF_"SEY"/"your organisation".

For example: **LOI_2/2024/SG_CEPF_SEY/IUCN NL**

LOI submitted past the deadline or in any other language will not be eligible.

3. SELECTION AND AWARD PROCESS

Before submitting anLOI, applicants are encouraged to read the "[12 Tips for Getting Your Grant Idea Funded](#)" for helpful advice.

The selection process for the LOIs will take approximately six weeks from the submission deadline. All applicants will be informed of the decision in due time.

CSOs whose applications have been preselected will be required by the RIT to provide a more detailed LOI proposal. Final approved LOIs will be awarded a small grant, with an agreement made between IUCN NL, as the RIT, and the applicant's organization (the "grantee").

Grants will be in United States dollars and grant agreements will be in English.

An online information session will be held on Tuesday, 20th August from 4:00 p.m. to 5:30 p.m. (Seychelles time, GMT+4) to inform all potential candidates and give them the opportunity to ask questions. The session will be recorded.

- Register here to join the English Online Information [Session](#)

On this [webpage](#), a Q&A section will be regularly updated up till the deadline of the Call for LOI by the RIT, providing detailed answers to the questions submitted by the applicants.

4. REFERENCE MATERIALS

All applicants are advised to review the ecosystem profile for the Madagascar and the Indian Ocean Islands Biodiversity Hotspot, which provides more detail on the types of activities CEPF will fund under each investment priority.
